Art Unit: 2632

1. The status of the parent application 10/139,789 (abandoned) should be inserted on page 1, in the sentence under "Prior Application".

2. The disclosure is objected to because of the following informalities: page 4, line 3, the comma after "32" should be a period.

Appropriate correction is required.

3. The drawings are objected to because in Fig. 2, blocks 18, 22, 24, 26, 30, 34, 38 and 40, and circle 32, should be provided with "descriptive legends" per 37 CFR 1.84(o).

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

4. Claim 13 is objected to under 37 CFR 1.75(a) for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Where claim 7 recites various "signals" or "electrical signals" (see lines 9, 11, 15 and 17), it is unclear which of these occurrences of "signals" or "electrical signals" is or are being relied upon for antecedent basis of "the electrical signal" in claim 13.

5. This application is in condition for allowance except for the following formal matters: see paragraphs 1-4 above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The art cited by applicant (which was of record in the parent application) is made of record. Woods (US 4278969) is cited to further show the state of the art.
